Description

This is the Abekas microDVEOUS p/n 9400-0799-02 REV 05 s/n 358315 with the Lite Texture option p/n 9400-0798-02 REV 00 s/n 267737. This board works with the Truevision TARGA2000 RTX, I believe it also work with TARGA2000 SDX but not sure. This board currently has flash code for MAC loaded, it will not work with PC unless you have flash code from Truevision/Pinnacle systems. With this board you will add to your editing system the following features (WARP, LIGHTING and TEXTURE, LUMA and CHROMA KEY and more). You will need the Truevision Abekas Routing Module to connect this board to the TARGA2000 RTX, and if you're running Abekas/Accom microSPHERE software you will need the DVEOUS EFFECTS software security key. Please see my other auctions for these items. What you see in the picture is what you get. Flat shipping is \$20.00 insured to the US 48 States. I only ship to the US 48 states. No international bidder (Alaska and Hawaii included). It's been working great for me so I offer 7 days warranty. If there is anything wrong with the board, buyer must contact me within 7 days of receiving and send the board back to me for refund (shipping is excluded). I accept PAYPAL, Money order/Cashiers check. Thank you for looking at my item.
